To support the WHS agenda on 'leave no one behind', CARE is actively engaged on numerous inter-agency efforts to ensure inclusive and needs-based humanitarian action. In so doing, it recognises the inter-sections between gender, age, disability and other factors that prevent people accessing the assistance and protection they need. In particular, it commits to: scale-up partnerships with women-led organisations on humanitarian assistance and protection, disaster risk reduction, climate change resilience and adaptation and recovery programmes in Syria, Pakistan, Nepal and Niger and draw learning from these partnerships to inform its global approach; partner with women's organisations in its core sectors (shelter, WASH, sexual reproductive and maternal health and food security) to bring their expertise into efforts to define and implement minimum standards on gender in these sectors; monitor funding to women-led groups and triple it by 2020 from its 2015 level; scale-up our 'whole of programme cycle' approach to monitoring gender responsive programming across all 80 CARE country offices emergency preparedness plans and bring learning from this into efforts to strengthen the IASC Gender Marker and the forthcoming new accountability framework for the IASC 2008 Gender Policy Statement. To do this, CARE will build on its active role in piloting 'whole of programme' approaches to Gender Marking and the piloting of 'minimum standards' for gender, age and disability in the WASH sector.

By 2020 CARE will secure more resources for first and front line responders to spend on humanitarian action, DRR and climate adaptation and loss and damage.

To recognise and strengthen support for the role of local institutions in humanitarian action and meet the anticipated increase in need likely to be associated with accelerated climate change CARE commits to ensure that by end 2018 at least 50% (and by 2020, 100%) of all its partnerships fully comply with the Principles of Partnership, and thus reflect strategic partnership rather than subcontracting relationships; by May 2018 publish the percentages of its humanitarian budget which goes directly to partners for humanitarian capacity building and undertake to ensure it budgets for adequate administrative support for partners beyond the immediate costs of delivering specific projects; ensure that by May 2018 at least 20% of its humanitarian action (measured by spending) will be delivered through southern-based NGO partners; by 2020 streamline and harmonise with other similar NGOs the compliance requirements requested of partners and commit to not ask more of partners than donors ask of CARE; promote the role of local actors and acknowledge the work that they carry out, and include them as spokespersons when security considerations permit in any communications to the international and national media and to the public; by 2020 document the types of organisation CARE cooperates with in humanitarian response and publish these figures (or percentages) in public accounts using a recognised categorisation such as the GHA3 in real-time and to the IATI standard; only deploy to undertake humanitarian responses.
where needed, ensuring that its support is based on a clear assessment of need and complementarity with national NGOs, local CSOs and other stakeholders when making go/no go decisions on a response.
