World Vision’s commitment to humanitarian response:

**Commitment to the CHS**

1. Engage with communities as first responders, not passive recipients.
2. Support regions in their implementation plans.
3. Continue to be led by decentralised decision making of its national humanitarian interventions.
4. Develop and roll out comparative evidence of how NGOs of different scales and what support systems need to be in place.
5. Develop and roll out comparative evidence of how NGOs of different scales and what support systems need to be in place.
6. World Vision will work with the humanitarian and private sector to increase the capacity building interventions that strengthen civil society, local business and governments to meet the needs of the most vulnerable citizens, including children and thereby to increase the potential for locally inclusive economic growth and resilience.

**How are you assessing progress?**

- Sustain the capacity and improve the quality of the CHS in each region;
- Continue to be led by decentralised decision making of its national humanitarian interventions;  
- Continue to support the Government and its agencies in the implementation of the CHS.

**Next steps to advance implementation in 2017**

- Sustain and build the staff capacity and develop regional plans to conduct CHS self-assessments and subsequent implementation plans.
- Build on the experience of previous assessments and improve them.
- Use the self-assessment process as a learning exercise in our responses.
- Use the self-assessment report to DEC. This self-assessment was based on the lessons learned and the Zimbabwe portion of the SALM project. The process was a collaborative effort between GF-HEA, WVUK, and the two response offices.
