

Making commitment today on 14 global and regional DPOs, who together have 1200 national member organisations.

Today our Alliance makes a broad commitment to move beyond words. To do this, we commit to:

1. Take part in national, regional and global consultations, with and on behalf of people with disabilities, to build bridges between organisations of persons with disabilities and the humanitarian sector.
2. We commit to working with Governments, UN agencies and humanitarian actors at all levels to provide information to the humanitarian sector and find ways to build capacities of organisations of persons with disabilities to directly engage in the development of inclusive humanitarian action
3. We commit to work closely on the development of the future guidelines on inclusion of persons with disabilities in humanitarian action.
